

CONSTRUCTION GRADE GENERATOR, BUILT TO KEEP YOUR JOB SITE POWERED

Don't get stuck without a power source! Bartell Generators offer three options for reliable power supply for all your job-site tools and devices.

We use only genuine Cooper™ components, the highest quality available, ensuring a safer product.

TECHNICAL SPECS

Frequency	60Hz
Rate Output	6500W
Max Output	7000W
Voltage	120V / 240V
Rated Amperage	54.2A / 27.1A
DC Output	12V
Engine Model	LT420
Displacement	25.6cu in (420cc)
Length	29.3" (745mm)
Width	21" (530mm)
Height	23.2" (590mm)
Weight	194lbs (88kg)

FEATURES

- Integrated hoist hook
- Folding handles
- AVR - Auto Voltage Regulation keeps voltage within 3% (+/-)
- Brushless alternator for longer life and less maintenance
- Genuine Cooper™ brand GFCI outlets - High quality electrical components for operator safety
- Master circuit breaker prevents alternator damage
- Voltage meter for monitoring of performance
- 12 volt DC Outlet provides 6.2 amps of DC power
- Large fuel tanks deliver 8 hours of run-time on a single tank
- Standard wheel kits for built-in mobility
- Roll cage protects all components
