

HEAVY-DUTY COMPACTION FOR GRANULAR, MIXED, AND COHESIVE SOILS

The BT1600 is the heaviest hitting upright rammer offered by Bartell Global. It offers almost 500 lbs more compaction force than most standard rammers, helping you get greater compaction within a small footprint area, to achieve a deeper compaction depth.

- Adjustable height operators handle for operator comfort & convenience
- Honda GX120 powered with diaphragm carburetor
- Heavy-duty throttle control provides longer life
- Dual air filtration keeps the dirt where it belongs: out of your engine
- Integrated fuel valve provided for easy starting
- Heavy shock mount system to reduce hand/arm vibration and improve operator comfort
- Protective roll cage prevents possible damage on job site
- Integrated roller and lift handle makes loading and unloading a one-person job
- Transport dolly included

TECHNICAL SPECS	
Engine	Honda GX120
Power Output	3.5hp (2.6kW)
RPM	3600
Fuel Capacity	0.7 GAL (2.65L)
Starting System	Recoil
Jumping Stroke	2.8" (70mm)
Compaction Force	3530lbf / 15.7kN (1600kgf)
Length	28" (720mm)
Width	16" (415mm)
Height	41" (1045mm)
Weight	168lbs (76kg)
Plate Size	11" x 12" (280mm x 300mm)
