

## MAKES CLEAN CUTS INTO NEWLY POURED CONCRETE

The fastest saw on the market!

It excels at making clean cuts into newly poured "green" concrete or general slab cutting. The combination of a center mounted blade and dual roller guides gives the operator the tools to make straight cuts everytime. Unique 6000rpm blade shaft speed allows the blade to slice through green concrete cleanly, without disturbing the aggregate.

- High speed and lightweight
- Great for relief joint sawing in new concrete.
- Powered by a 7hp Kohler engine
- Quad clean air filter

### TECHNICAL SPECS

Engine	Kohler	
Power Output	7.0hp (5.2kW)	
Blade Arbor Diameter	0.625" (15.88mm)	
Depth Adjustment	Handle Rotation	
Length	44" (112cm)	
Width	15" (38cm)	
Height	31" (79cm)	
Weight (dry)	112 lbs (51kg)	
Weight (operating)	120 lbs (54kg)	
Blade Speed	6000rpm	
Max Depth	Green	1.5" (37mm)
	Cured	3.25" (81mm)
Max Blade Diameter	10" (250mm)	
Max Dual Blade Diameter	-	
Min Blade Diameter	7" (180mm)
