

PORTABLE POWER FOR YOUR SMALL EQUIPMENT

Don't get stuck without a power source! Bartell Generators offer three options for reliable power supply for all your job-site tools and devices.

We use only genuine Cooper™ components, the highest quality available, ensuring a safer product.

FEATURES

- Integrated hoist hook
- Folding handles
- AVR - Auto Voltage Regulation keeps voltage within 3% (+/-)
- Brushless alternator for longer life and less maintenance
- Genuine Cooper™ brand GFCI outlets - High quality electrical components for operator safety
- Master circuit breaker prevents alternator damage
- Voltage meter for monitoring of performance
- 12 volt DC Outlet provides 6.2 amps of DC power
- Large fuel tanks deliver 8 hours of run-time on a single tank
- Standard wheel kits for built-in mobility
- Roll cage protects all components

TECHNICAL SPECS

Frequency	60Hz
Rate Output	2500W
Max Output	2800W
Voltage	120V
Rated Amperage	20.8A
DC Output	12V
Engine Model	LT210
Displacement	12cu in (196cc)
Length	25.6" (650mm)
Width	18" (458mm)
Height	18.9" (480mm)
Weight	99lbs (45kg)
