FEATURES & BENEFITS

RUGGED DESIGN, BUILT TO LAST: The compactor you can rely on to get the job done.

Bartell's Forward Compactor Series is a proven series that has been built by Bartell Global since the 1970's. These compactors excel in landscaping applications and are easy to transport because of their light-weight build – that doesn't sacrifice compaction force. These units are perfect for any type of compaction job, needing under 5000lbs of compaction force.
