

SPEEDSTER BURNISHER SB21, SB24, SB27

Introducing the Speedster SB21 Burnisher from Bartell

The best way to maintain floor finish shine is high-speed burnishing utilizing the Bartell SB21 Speedster Burnisher. This process is done with a rotary machine that has a pad turning speed of more than 1000rpm but more commonly done at 1500 to 2000rpm. Burnishing floor finish is helpful for two reasons. First it makes floor finish shine but more important, it makes the floor easier to keep clean. This is because it smooths out the scratches in the floor, removing areas for dirt to settle. Once dirt gets in the scratches, it is difficult for regular cleaning to remove and with foot traffic will continue to further scratch the floor.

Features

- Ultra Low Profile: 3 3/4" (10cm) for burnishing hard to reach areas
- Rugged, patented solid steel body
- 20HP 603cc Kawasaki engine with low oil shut down and safety regulator fuel system
- Premium catalytic muffler for ultra low CARD and EPA emissions
- 12V battery key start
- Adjustable comfort handle with click-n-lock throttle cable
- Advanced polymer composite pad driver
- Adjustable back wheels for controlled pad pressure
- Patented airtight floating dust skirt
- Green cleaning certifications: EPA, CARB, LEED, CE, GS-42
