

**SAWS DESIGNED
WITH THE
PROFESSIONAL
CONTRACTOR
IN MIND**

FEATURES

- Polypropylene Water Tray offers better durability and support than ABS trays and is lighter than stainless steel trays (2 year warranty)
- Water Pump is high-output and provides cooling water to protect blade
- Adjustable Cutting Height from 6" to 10" (15cm to 25cm), also suitable for plunge cutting
- Rubber Matted Cutting Table is chemically bonded for enhanced durability
- Water Tray Bracket is secured in place by easily accessible bracket
- Table Retention Device equipped with spring-lock to secure cutting table when transporting
- Thermal Overload Protection prevents motor from overheating and protects saw from power surges
- Blade Guard with Brushes to uniformly distribute water over blade for effective cooling
- Liquid Cooled Bearing Housing works with water pump to cool down housing
- Folding wheeled stand and tile blade included.

TECHNICAL SPECS

Horse Power	1.5 HP
Volts	115 V
Hertz (Cycles)	60 Hz
Blade Capacity	6" - 10" (15cm - 25cm)
Blade Arbor	5/8" (1.6 cm)
Blade Shaft Speed	3,200 rpm
Weight	98 lbs. (44 kg)
Straight Cut Length	17" (431mm)
Cutting Depth	3 1/2" (9 cm)
Rip Cutting	20" (51 cm)
Diagonal Cutting	14" (36 cm)
