

BR4600
REVERSIBLE COMPACTOR

10,000 LBS OF
 COMPACTION
 FORCE TO CONQUER
 MEDIUM & LARGE
 JOBS QUICKLY

With high-quality construction, Bartell compaction can stand up to whatever your job requires. The BR4600 Reversible Compactor is built for medium - large applications. Equipped with either a Honda GX390 or Yanmar Diesel engine, it has the power and force to effectively compact deep base material properly.

FEATURES

- Fully hydraulic reversing mechanism with flexible maneuverability allows the machine for forward, backward, and spot-on compaction
- Cast aluminum throttle lever for a more professional, stronger, and durable for tamping
- Full roll cage and built in lifting bale for increased engine and guide hook protection
- Cast aluminum belt cover for increased clutch and engine longevity
- Ductile iron bases for increased strength
- Wheels that flip down for easy transportation
- Optional extension plates and urethane mat options available
- Full speed in both forward and reverse
- Specialized for compacting sand, trench, and patching
- Diesel model offers key start or recoil start

TECHNICAL SPECS

| | | |
|-------------------------|-------------------------------|-----------------|
| Engine | Honda (Gas) | Yanmar (Diesel) |
| Spec | GX390 | L100W |
| Power Output | 8.6hp (6.3kW) | 9.3hp (6.9kW) |
| Compaction Force | 10,141 lbf / 45 kN / 4600 kgf | |
| Max Travel Speed | 72'/min (22m/min) | |
| Length | 62" (1570mm) | |
| Width | 19" (485mm) | |
| Height | 37" (930mm) | |
| Weight | 772lbs (350kg) | |
| Plate Size | 19" x 34" (48 cm x 86 cm) | |
| Base Material | Ductile Iron | |
