

DELTA II

CONCRETE GRINDER

VERSATILE DUAL HEAD GRINDER

The wide range of grinding tools and operating options make the DELTA II grinder extremely versatile, capable of grinding most types of floors including concrete, terazzo and asphalt.

Ideal for surface preparation prior to the application of epoxy and similar coatings, effectively removing rubber deposits, adhesives, bituminous coatings and impacted dirt from factory floors.

The DELTA II is incredibly easy to operate and can be used with an industrial vacuum for a dust free working environment.

Vibration and noise levels have been reduced to a minimum for the operator's safety and convenience.

The unique triangular shape of the grinding tools increases the performance and the overlap created helps prevent the rings normally associated with other dual headed grinders.

| TECHNICAL SPECS | | |
|-------------------|---------------------------------|-----------------|
| MODEL | CTGDELTA2 | CTGDELTA2P |
| Motor | 12hp 230V, 60Hz 3-Phase, 26A | 12hp Gas/Petrol |
| Working Width Max | 19" (48 cm) | |
| Length | 41" (104 cm) | |
| Width | 26" (66 cm) | |
| Height | 45" (114 cm) | |
| Weight | 385 lbs (159 kg) | |
