

# HORNET SHOTBLASTER

## SMALL, TENACIOUS, VERSATILE SHOTBLASTER

The HORNET is a tenacious, yet highly versatile shot blasting machine. Since it only requires a 110 Volt, single phase, 20 Amp circuit, it is extremely well suited for applications where power requirements are a concern.

This unit is lightweight and highly maneuverable yet still capable of delivering a properly prepared surface.

### FEATURES

- Convenience is the key!
- Powered by a long-life, industrial-strength motor
- Utilizes soft start technology, allowing the use of a more powerful motor
- Height adjustable handle ensures operator comfort
- Clear, concise ampere meter helps ensure consistency
