

BETTER PRODUCTIVITY FOR THE MASONRY PROFESSIONAL

FEATURES

- Reference marks provide cutting depth measurements for accurate plunge cuts
- Heavy duty power switch prevents the motor from over heating and protects the saw from power surges
- High plunge handle provides better leverage during plunge cuts
- Built-in water tray allows for convenient water storage during saw operation
- Ruler guide provides convenient measurement reference and higher precision
- Water drainage system removes slurry, allowing clean water to run through the pump
- Folding legs for fast setup

TECHNICAL SPECS

Motor	115 - 120V/60Hz
Horsepower	2.5hp
RPM	3420 rpm
Max Blade Capacity	14" (36cm)
Cutting Depth	4.5" (11cm)
Cutting Length	17" (43cm)
Length	40.5" (103cm)
Width	23.2" (59cm)
Height	31.7" (81cm)
Weight	207 lbs (94kg)
