The newest addition to our fleet offers all the features of the BXR836, with the added benefit of **HYDRAULIC POWER** delivering immediate, responsive steering.

With its compact dimensions and minimal weight, this unit is transported with ease, hoisted to multiple stories, and placed on the slab very early in the process.

- Heavy-duty gearbox provides long life and less maintenance
- Low rider profile gives excellent line of sight and low center of gravity for a seamless finish.
- Non-overlapping design allows for both panning & finishing
- Dual 4 blade trowel with exceptional production rates
- Optional transporter dolly is available for easy mobility
