TERMINATOR TOOLING

The Terminator Ride on Floor Scraper has a variety of tooling options to help you remove most commercial & industrial flooring quickly. All of the tooling shown below can be used on any Terminator model as they all use the same holders and attach the same.

Our tools have been developed to remove a variety of materials with ease, while also providing long life to reduce your tooling costs. With the available Floor Scraper tooling, you will be able to conquer any job.

TYPE OF MATERIAL TO BE REMOVED

TILE

CARPET

HARDWOOD

VCT, LINOLEUM,
RUBBER FLOORING

MORTAR,
OVERLAYMENTS

ADHESIVES

BLADE THICKNESS

FLEX

Flex blades are used when you need more flexibility out of the blade so that it contours to the floor better. This is helpful when removing softer materials such as coatings or adhesives

STANDARD

Standard Blades are the most common thickness of blade as they are very versatile. If you are removing different types of flooring often, these are a great all around blade to use on a variety of materials.

HEAVY

Heavy blades are generally used when increased durability and rigidity is desired. For example, when removing materials such as VCT and other tough soft materials, these blades will hold up.

SUPER-DUTY

Super Duty Blades are used when extreme rigidity is required. They are the thickest blade offered for the Terminator Series.

NO-NOTCH BLADE

No-Notch Blades are used to remove VCT, Linoleum, glue, and a variety of coatings and other soft materials. The No-Notch design gives the blade more flexibility in the holder, helping you to remove softer materials such as glue, adhesives and other soft coatings as the blade will contour to the curves of the slab better.

FLEX		STANDARD		HEAVY		SUPER-DUTY	
81-0045	3" x 13" x .062"	81-0051	4" x 9" x .074"	81-0054	4" x 9" x .092"	81-0082	4.5" x 10" x .125"
81-0047	3" x 26" x .062"	81-0057	4" x 13" x .074"	81-0060	4" x 13" x .092"	81-0084	4.5" x 13" x .125"
		81-0063	4" x 18" x .074"	81-0066	4" x 18" x .092"	81-0086	4.5" x 26" x .125"
		81-0069	4" x 26" x .074"	81-0072	4" x 26" x .092"		
				81-0081	6" x 26" x .092"		

NOTCHED BLADE

Notch blades excel at the removal of materials such as VCT, Linoleum, glue, and a variety of coatings and other soft materials. Notch blades gives you more rigidity as you scrape, which make them ideal for mainly VCT and Linoleum removal.

STANDARD		HEAVY		SUPER-DUTY	
81-0052	4" x 9" x .074"	81-0055	4" x 9" x .092"	81-0083	4.5" x 10" x .125"
81-0058	4" x 13" x .074"	81-0061	4" x 13" x .092"	81-0085	4.5" x 13" x .125"
81-0064	4" x 18" x .074"	81-0073	4" x 26" x .092"	81-0087	4.5" x 26" x .125"
81-0070	4" x 26" x .074"	81-0081	6" x 26" x .092"		

SELF DICING BLADE

When removing carpet, dicing blades save time and labor by cutting the carpet into strips as you remove the material. This lets the carpet come up easily and then roll into easy-to-clean-up sections, making the process much more efficient.

STANDARD		HEAVY	
81-0053	4" x 9" x .074"	81-0056	4" x 9" x .092"
81-0059	4" x 13" x .074"	81-0062	4" x 13" x .092"
81-0071	4" x 26" x .074"	81-0068	4" x 18" x .092"
		81-0074	4" x 26" x .092"

TILE TOOTH

The Standard Tile Tooth is great for removing tile and other tough materials. It is a cost-effective and very aggressive tile removal.

The Milled Tile tooth is used for removing materials such as ceramic tile and other tough materials that require more focused force. The leading edge is milled to have a sharper, more aggressive tip compared to the standard tooth.

83-0002

STANDARD TILE TOOTH

83-0001

MILLED TILE TOOTH

SABER CLAW

The Saber Claw Carbide Bits comes in 2", 4" or 6" widths to accommodate a wide variety of challenging materials, such as ceramic, quarry, stone tile, wood flooring, mortar & various overlayers.

83-0014	2" SABER CLAW BIT
83-0015	4" SABER CLAW BIT
83-0016	6" SABER CLAW BIT

CHISEL BIT

Chisel bits are generally used for removing hardwood flooring. We offer two styles that can be used depending on the specific type of flooring and how tough it is to remove.

81-0355	20" FLAT CHISEL
81-0356	DIGGING CHISEL
81-0361	3" WIDE CHISEL
